

CLIMATE TALKS WS 20/21

Public-online seminar of the Masterprogramme ***Climate Change Management***

Thursday 4 p.m. (local time)

8.10.	Prof. Dr. Karl Auerswald - TUM - Germany	Change in rain erosivity during the past 60 years and projections until 2050.
15.10.	Prof. Dr. Lutz Katschner - INEK - Germany	Urban Climate Strategies to mitigate Climate Change
22.10.	Dr. Louis Verchot - The Alliance of Bioversity International and CIAT - Colombia	GHG emissions from tropical peatland degradation – a comparison between the ombrotrophic peatlands of Indonesia and minerotrophic peatlands of Peru.
29.10.	Prof. Dr. Jørgen Eivind Olesen - Aarhus University - Denmark	Climate smart agriculture in Europe
5.11.	Prof. Dr. Gert Jan Nabuurs - University of Wageningen - The Netherlands	Climate smart forestry in Europe: from european perspective to local implementation
12.11.	Dr. Juan C Benavides - Pontificia Universidad Javeriana - Colombia	From the Amazon to the Andes: the potential role of organic soils on climate mitigation in Colombia
19.11.	Dr. habil. Werner L. Kutsch - Integrated Carbon Observation System (ICOS) - Finland	Systematic and standardised observations of greenhouse gases and carbon-climate feedbacks in Europe and globally
26.11.	Prof. Dr. Ralf Ludwig - LMU - Germany	Assessing the impacts of climate change and climate variability on hydrometeorological extreme events
3.12.	Dr. Esteban Suárez - Universidad San Francisco de Quito - Ecuador	Climate change and ecosystem services: Perspectives from a carbon rich ecosystem of the northern Andes - focus region Ecuador
10.12.	Prof. Dr. Hans Schnyder - TUM - Germany	Climate change effects on carbon-water-nutrient relations of grassland: What will happen and how much has happened already?
17.12.	Prof. Dr. Karen Pittel - IFO/LMU - Germany	Challenges to Climate Policy in Germany and the EU
7.01.	Dr. Christian Hof - TUM - Germany	How can we improve assessments of climate change impacts on biodiversity? Examples across scales and taxa.
14.01.	Prof. Dr. Markus Disse - TUM - Germany	Flash floods – global trends and importance for Bavaria: modelling and warning
21.01.	Prof. Dr. Otmar Edenhofer - PIK - Germany	The Green Deal and the Future of Climate Policy - An Opportunity for the EU?

Attendance via Zoom: max. places 300. Access open 10 min before start:

login: <https://hswt.zoom.us/j/98682117504> ; Meeting-ID: 986 8211 7504; Kenncode: M-CCM-2020

gez. Prof. Dr. Matthias Drösler – coordinator M-CCM - matthias.droesler@hswt.de
